

APRIL 2021

IMPACT OF COVID-19 ON THE AMAZON

FROM MARCH 2020 TO MARCH 2021

A YEAR OF PANDEMIC

Just like other countries around the world, COVID-19 arrived in the Amazonas causing great difficulties. Those affected most were those on low-income and the riverside communities.

As a result of the pandemic, we had to rethink Ray of Hope's activities and look at how we could meet the needs of those that desperately needed support. We began to receive several requests for help for food, medicine, personal hygiene and protection material against COVID-19. Our goal has always been to try and help them. As time went by, the needs got worse and more requests came in.

During this time, we experienced God's presence and the need to depend on Him was constant in our lives. At every stage of our journey, He gave us new strategies and ideas and so the work continues to this day.

"HE WHO HAS PITY ON THE POOR LENDS TO THE LORD, AND HE WILL PAY BACK WHAT HE HAS GIVEN." PROVERBS 19:17 - NKJV

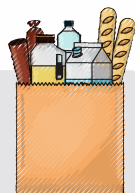

DONATIONS MADE

MARCH 2021**

81

COMMUNITIES, JUNGLE VILLAGES, TRIBES AND POOR AREAS IN MANAUS

The needs increased in all Amazon as result of the difficult time . Also the requests for help in many areas and in order to serve as many people as possible, without breaking the protocols for preventing COVID-19, we adapted our delivery logistics were through local pickup, authorized speedboats and boats , partnerships with other institutions, including the governmental social help . God has blessed His work .

FEEDING CENTER & SPECIAL CHILDREN

FROM MARCH 2020 TO
MARCH 2021

The feeding centers were also affected by the pandemic, we had to suspend activities in early April 2020, a difficult decision, because we know that several children eat only at the center, and both are located in poor areas of the municipalities. Given the situation and thinking about the well-being of everyone, we took the initiative to reinvest the money in the purchase of basic food bags, so we would be assisting all registered families and many families have been blessed monthly until the present moment.

AUTAZES

DONATED

MANACAPURU

362

FOOD BAGS
DONATED

SPECIAL CHILDREN, ORPHANS AND WIDOWS

Due to the restrictions in place during the pandemic, we had to suspend our visits. We thank God that we were still able to provide and deliver monthly food bags and keep in contact with all the families on a regular basis. In addition to the work we were doing, we are now supporting children who are orphans of Covid-19.

88

MEDICAL AND
SOCIAL
ASSISTANCE

61

PSYCHOLOGIST
APPOINTMENTS

According to all numbers presented so far, in a year of pandemic
we supported approximately:

24,133

ASSISTED PERSONS

NEW STRATEGIES

In order to improve our activities, we managed to register with CMAS (Manaus municipal registration for social work), we also search new local partnerships, as we know that this way we could reach larger number of people. Looking for a better control of donations, we have adopted a digital form (KOBO), which allows us to pass a result with greater precision, in addition, it is a form that works offline too, and can be accessed anywhere.
